

Prayer for Health

Carol Willison

Spirit of Oneness, Creator of all, Source of all love, all health, all wholeness, you are present everywhere at all times, in all, with all, and through all. There is only the truth of Oneness.

I affirm that the health, wholeness, and wellness I seek for myself and others is already present and acting in our lives to the highest and greatest good for all.

Knowing this to be so, I receive these blessings of health, of wellness, of wholeness, of peace with myself.

I am grateful.

Thank you, God.

And so it is.
